

This year MFSC is hosting Snowflake, the annual Central Ontario Metro West Area Competition. This event will run on Saturday, January 9th at Tomken arena. This competition is open to all skaters, including CanSkaters!!

At the CanSkate level, skaters are asked to perform 4 specific elements from the level they are working at on a circuit, just as they do when they skate in their regular lessons. While skating the circuit, the elements performed are evaluated by evaluators.

At the end of the evaluation, the skaters remove their skates and go to a designated area where they pick up their evaluation certificate. The certificate will include a ribbon for each skater. Some of our coaches will be available during the Snowflake competition that can go over your skater's results with you and answer any questions you may have.

There are also similar categories for StarSkaters, in addition to freeskate programs.

You can view the announcement on Skate Canada's Central Ontario Section website ([link](#)).

If you are interested in having your skater participate, please talk with our CanSkate Coordinator Leanne Pilon in person or via email at pilonblades@gmail.com. She will provide you with the level in which your skater needs to be registered, as well help with registration details. Board members at our CanSkate table during our CanSkate sessions can also answer questions you may have about the competition.

The deadline to register for the competition is midnight on November 25th.

Great skaters are MADE by their PASSION
